- District 1 - Sam Rankin (Construction) - \$500K
- District 2 - Alameda (Design Only) - \$3.5 million
- District 2 - Alameda (Construction) - \$17 million
- District 5 - Yorktown (Design Only) - \$4 million

F.A.Q. Frequently Asked Questions

Will the proposed Bond 2024 Program result in an increase in the City property tax rate?

The proposed Bond 2024 Program does not require an increase in the City's property tax rate.

What is a bond program?

A bond lets local governments borrow money for major capital improvement projects. It includes authorization to issue bonds and a detailed list of what the money can be used for. Programs like the City of Corpus Christi's Bond 2024 need voter approval.

How are bond projects selected?

The proposed Bond 2024 program includes projects reviewed and endorsed by the City Council. Initially, City staff surveys all city infrastructure to draft a list of needed projects. This list is shared with the Council for feedback. After discussions and input from the community, a final project list is established.

Where will the bond program have an impact?

The projects in the proposed bond program will impact all City Council districts of Corpus Christi. While many projects address specific infrastructure needs, several will have a city-wide impact.

Why do you issue bonds to pay for City projects rather than pay for projects with cash?

Bond funding helps pay for big city projects and lets the city budget focus on everyday costs like operations, upkeep, and public programs. With bonds, the city can invest in large projects faster and pay for them over a period of time.

Does this bond program impact my utility bill?

Proposition A could lead to higher utility bills for customers in 2026 or later, as the costs for water and wastewater related to street projects are not covered in the bond program.

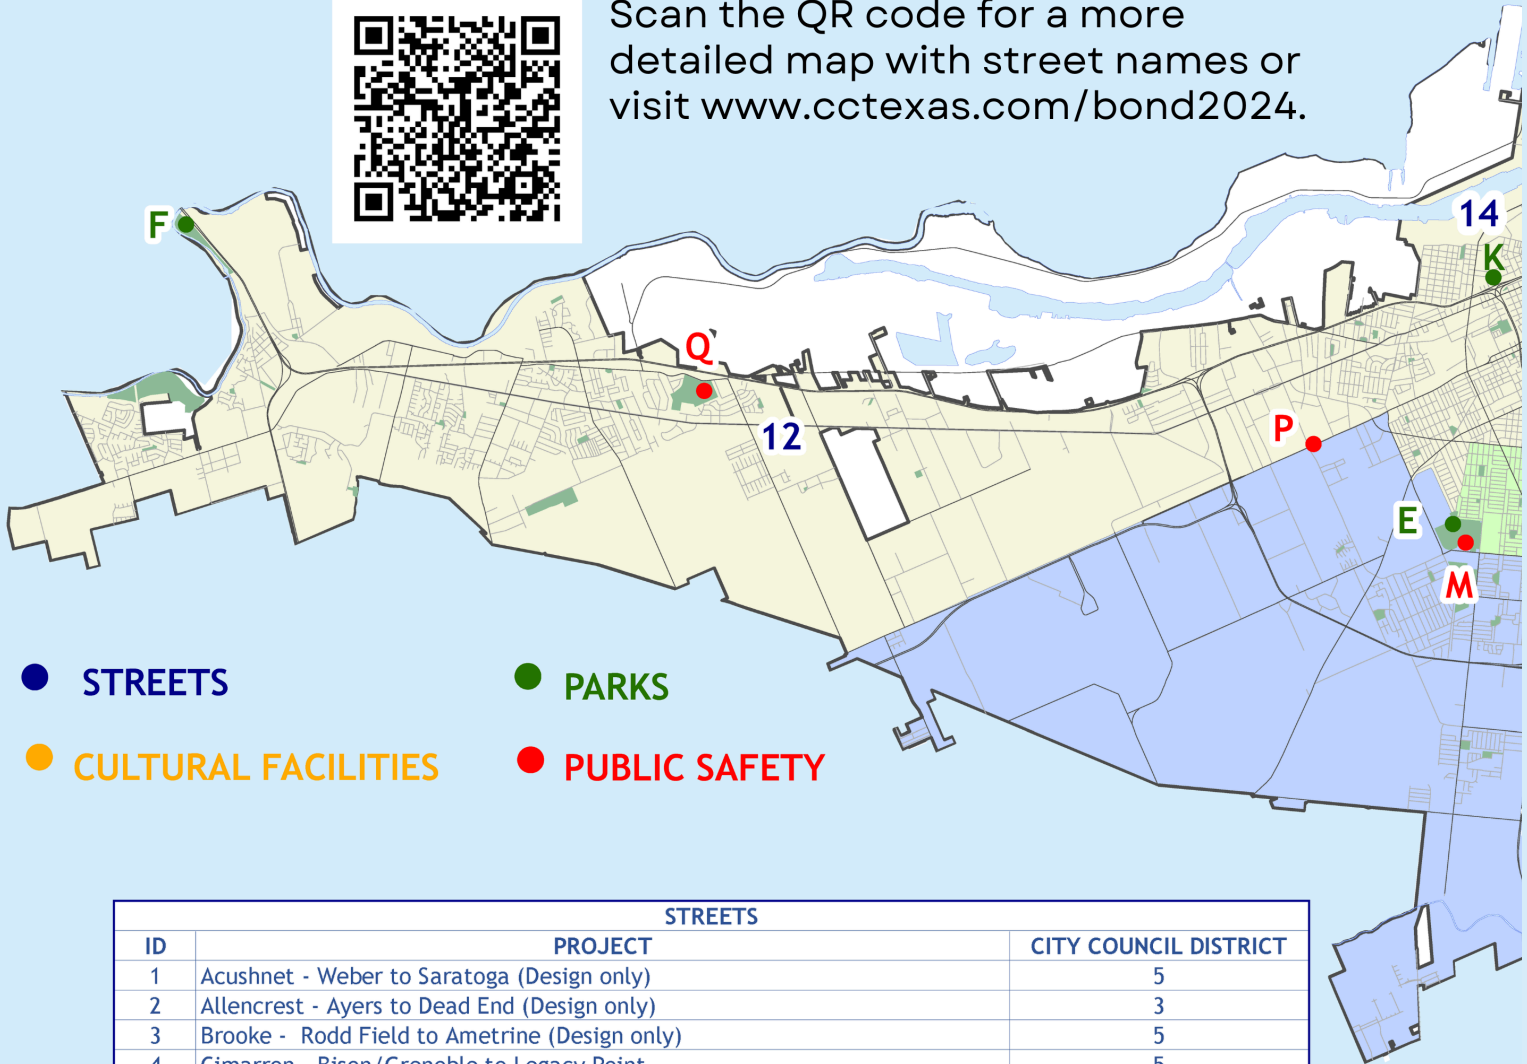

Project scopes, locations, and costs are estimates based on information currently available and are, therefore, subject to reasonable change on the basis of new and refined information up to the time of completion.
